

Category Theory and Computer Science: Manchester, UK, September 5-8, 1989. Proceedings

By -

Springer. Paperback. Book Condition: New. Paperback. 372 pages. Dimensions: 9.2in. x 6.1in. x 0.7in. This book presents the proceedings of the Sixth International Conference on Category Theory and Computer Science, CTCS 95, held in Cambridge, UK in August 1995. The 15 revised full papers included in the volume document the exploitation of links between logic and category theory leading to a solid basis for much of the understanding of the semantics of computation. Notable amongst other advances is the introduction of linear logic and other substructural logics, providing a new approach to proof theory. Further aspects covered are semantics of lambda calculi and type theories, program specification and development, and domain theory. This item ships from multiple locations. Your book may arrive from Roseburg,OR, La Vergne,TN. Paperback.

Reviews

This is an awesome publication which i have actually read. This is certainly for all who stante that there was not a well worth reading through. Its been designed in an extremely straightforward way and it is merely after i finished reading this ebook in which actually changed me, affect the way in my opinion.
