Routledge, 2011. Book Condition: New. Brand New, Unread Copy in Perfect Condition. A+ Customer Service! Summary: "Therapists wishing to make an impact in helping their clients understand and resolve their problems need to be aware of the nature and extent of difficulties their client is experiencing. There is no better way to provide clients with a valuable perspective than to ask them directly through a self-report personality questionnaire like the MMPI-2. This book, *Therapeutic Feedback with the MMPI-2: A Positive Psychology Approach* by Drs. Levak, Siegel, and Nichols, with Dr. Stolberg, all notable experts on psychological assessment with the MMPI-2, and broad in clinical practice, is an excellent place to learn the client feedback method. I strongly recommend this book as a must-read for assessment psychologists." - James N. Butcher, Emeritus Professor, University of Minnesota, USA "The authors approach actuarial and clinical data with a fresh perspective that describes and interprets personality in client-centered terms. Until recently, feedback has been the forgotten stepchild of personality assessment with the MMPI-2. This work fills a glaring gap in MMPI-2 assessment and serves, not only as a guide to using feedback in a positive way, but also provides a remarkable example of the description of personality functioning in general. There is nothing else out there like it; this book is destined to become a classic." - Philip A. Marks, PhD, retired clinical psychologist, Professor Emeritus, Ohio State University, USA "Levak, Siegel, Nichols and Stolberg offer a valuable blueprint for providing sensitive, person-centered, solution-generating MMPI-2 feedback; in essence, they supply the words for engaging in a meaningful dialogue with the client and mobilizing his or her positive potential. Included in their descriptions are rarely discussed strengths associated with MMPI-2 scores and codetypes and resilience-enhancing recommendations. This is an excellent resource for personality assessment practitioners, instructors, and...
