

Electric Lighting and Miscellaneous Applications of Electricity; A Text Book for Technical Schools and Colleges (Paperback)

By William Suddards Franklin

Rarebooksclub.com, United States, 2012. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book ***** Print on Demand *****.This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1912 Excerpt: .the maintenance labor can be more efficiently organized when a great many lamps of a kind are to be cared for than when the number of lamps is small. The maintenance cost in the table refers to two or three or four thousand hours use per year. When lamps are used only a few hundred hours per year the maintenance is more expensive per hour. (f) Color.--When whiteness of light is a necessity, it is of course meaningless to compare the cost of carbon-arc lamps and tungsten lamps with the cost of flame-arc lamps and mercuryvapor lamps. See Art. 76. 72. Lamp globes, shades and reflectors.--Let one consider the lamps which one sees everywhere, on city streets, in stores and public halls, and in residences, and one will realize that lamps are almost universally equipped with shades and reflectors. These shades and reflectors are used for...
