Since the late 700s, Vikings had been raiding the British Isles and much of the rest of western Europe; but in 865, these sporadic raids turned into a full scale invasion. Beginning with the Great Heathen Army, consisting of hundreds of ships and thousands of men, the Danish Vikings attempted to conquer and settle England. One man stood in their way—King Alfred, the only British king given the epithet The Great. In *The Dragon and the Raven*, a brave prince and a nobleman's son come of age in the midst of warfare on land and sea. Alfred is only 23 when he becomes King of England, which is divided by rivalries and beset by the Vikings. The Danes had not only plundered the coastlands, they had invaded East England, and were pressing their way south and west. Edmund is even younger than Alfred when his father, an earldorman, is killed by Danes; and Edmund offers his service to the King. After raising an army and defeating a powerful Danish force, he takes to the seas in his ship, the *Dragon*, to harry the Danes in the sea-ways where they sail their ships under the flag of a black raven.
